## TERRA MODO SERIES

Terra Modo represents the latest in modern ceramic technology to resist stains, freezing and the wear of traffic for a long time, thus conserving its original beauty.

Created to resemble natural stone, this product has an unmistakable rustic soul; a rough surface that is precious at the same time.

Its extraordinary versatility in design, from both the technical and aesthetic point of view, makes it suitable for both indoors and outdoors, in commercial as well as residential environments, to accompany simple furnishings or to add a touch of character to projects where the design is decidedly *trendy*.

A series of decorative/special pieces accompanies this range. Please enquire for details.
