VERA TERRA SERIES

Vera Terra represents a journey of discovery; Italy – a country full of evidence of its classical past, of architecture and of art.

Vera Terra is a series inspired by the great marble and travertine stone monuments, an indelible and precious sign of history and thanks to the evolution in technological and productive research these warm, elegant and romantic materials have been interpreted in this fine new series.

Ideal for creating welcoming environments with an unmistakable personality.

A series of decorative/special pieces accompanies this range. Please enquire for details.
