**Please note:** Technical information relating to this product is available on request.

### FORM SERIES

A range inspired by shape and form.

The range comprises a plain white tile with seven white, heavy moulded/relief tiles providing a truly individual look.

Also in the series is a 'wave' design (P8) in white and four accompanying pastel colours.

This series is ideal for highly contemporary projects demanding a distinctly *trendy* design scheme, within domestic & residential and some public area environments.

The range is accompanied by various borders and inserts/motifs, adding many decorative options.
